

A photograph of a modern living room interior. A black wood-burning stove with a large wooden beam mantel is the central focus. The stove has a fire burning inside. To the left is a wooden shelving unit with various decorative items. To the right is a modern armchair and a tripod floor lamp. A window in the background shows a view of a landscape. The text 'FOCUS ON BEAMS, SHELVES & SURROUNDS FOR STOVES.' is overlaid on the right side of the image in large, white, serif capital letters.

Our focus is on providing you with a visually stunning product to accompany your stove

For over 35 years Focus Fireplaces has been at the forefront of design, innovation and manufacture within the fireplace industry. Our mantel beams and associated products for stove installations are manufactured in the UK using premium, responsibly sourced timbers and materials in a purpose-built factory in York.

Our experienced and highly skilled team are dedicated to the delivery of excellence; from the finest quality products to the best possible customer service, we take pride in maintaining our market-leading reputation.

We have a policy of only selling our fireplace products through appointed retailers, installers and tradespeople to ensure that customers receive the best possible service, advice and technical assistance.

Visit our website www.focusfireplaces.co.uk to explore our full range of Fire Surrounds, Stove Surrounds, Mantel Beams and Electric Suites.

INTRODUCING NON-COMBUSTIBLE BEAMS

The appearance of real wood or stone with advanced fire-resistant performance.

A revolutionary range of fire-resistant mantel beams and stove surrounds, FocusCast products combine the charm of natural timber or stone with advanced non-combustible qualities.

Manufactured in the UK from a high-density mineral composite material, FocusCast products are moulded from a range of characterful natural materials and can be positioned closer to a stove than a real timber beam.* Hand painted using water based products, the FocusCast range is a truly realistic alternative to our natural timber products.

* Minimum clearances for non-combustible surrounds and beams:
250mm above the stove on a 5kW stove and 350mm on a 7kW stove

The Beauty of Solid Oak

The majesty of a solid oak beam above a roaring stove is an image that many of us visualise when we imagine a warm, cosy room.

With unique natural features, each beam and shelf is truly one of a kind and can be shaped and coloured to suit your own personal tastes. We only use Sustainably sourced timber which is dried in the best possible way to provide the greatest stability in use.

DEEP BEAM RANGE

2 PROFILES

Deep Beam

Deep Beams are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skilful workmanship further enhances the beam with progressive levels of ageing (Round Edge, Rustic, Dressed, Aged, Extremely Aged or even Ancient). Each beam is then beautifully finished with your choice of colour.

Deep Beams are not available in Prime Timber

Hollow Deep Beam

Hollow Beams are fabricated to give the appearance of a Solid Beam. Their lighter construction is ideal where weight is an issue. They can be made to any size up to 3m. Hollow Beams are not available as Dressed, Extremely Aged or Ancient Oak.

FIXING SYSTEMS

FOCUS EASY-FIX

Supplied as standard with all FocusCast Beams & FocusCast Surrounds. Optional extra on oak beams and shelves, as well as selected stove surrounds.

Nothing can be easier than an Easy-fix!!

The Focus Easy-fix system is a substantial bracket designed to simplify the fitting of the heavier beams and shelves. It comes supplied with plugs and screws.

Once the beam is in place, it is easily secured from underneath with a few turns of an Allen Key.

Focus Easy-fix Bracket

If the Easy-fix system is not specified on Oak products we supply three M10 x 300mm threaded metal bars that screw into pre-drilled holes in the back of the beam. Consult with your Installer for more information.

FIXING SYSTEMS

OAK FASCIA BEAMS

Oak Fascia Beams are supplied with two metal plate keyholes inserted in the back. These come complete with plugs and screws.

Alternatively there is an 850mm Easy-fix system designed for Oak Fascia Beams. (We recommend discussing fixings with your installer).

DECORATIVE HEAT SHIELDS

FOR SOLID OAK DEEP BEAMS & GREAT BEAMS

A decorative panel that can be added to Deep Beams and Great Beams giving a stylish finishing touch to your installation.

▲ ABOVE Decorative Heat Shield illustrated in Gold

AVAILABLE LENGTHS:
36" x 4" & 36" x 6"

NOTE: There are Regulations that specify the minimum distance that a beam /shelf must be positioned above the stove. These measurements vary depending on the type and heat output of the selected stove. Please refer to your stockist/installer for further information.

DECORATIVE CORNER TRIMS

A neat, effective way to create a clean edge to your chamber installation.

AVAILABLE LENGTH:
40" x 2" x 2"

Decorative corner trims are now supplied as a three piece set as standard and can also be specified as a two piece set on request.

LOOKING FOR SOMETHING DIFFERENT?

We also have a full range
of Fire Surrounds
and Electric Suites.

Ask your retailer / stockist for a copy of our latest brochure.

LOG CABINETS

Beautifully designed, our sturdy log
cabinets are the perfect accompaniment to
match your stove surround.

Built from either Solid Oak or painted MDF with a solid
oak top, both feature a durable backboard to protect
against damage.

See page 30 for colour & texture options

SOLID OAK

BEAM COVERS

Above: Beam Cover and Spars in Rustic Oak in a Light/Medium Finish

Create a superb ambience in your room with our authentic timber beams.

They are ideal where a steel beam needs to be covered as they can be made to almost any length and dimension and finished to match your internal decoration.
