STOVE BEAMS & SHELVES

SOLID TIMBER OR NON-COMBUSTIBLE
CAST BEAMS & SURROUNDS

Our focus is on providing you with a visually stunning product to accompany your stove

For over 35 years Focus Fireplaces has been at the forefront of design, innovation and manufacture within the fireplace industry. Our Mantel beams and associated products for stove installations are manufactured in the UK using premium, responsibly sourced timbers and materials in a purpose-built factory in York.

Our experienced and highly skilled team are dedicated to the delivery of excellence; from the finest quality products to the best possible customer service, we take pride in maintaining our market-leading reputation.

We have a policy of only selling our fireplace products through appointed retailers, installers and tradespeople to ensure that customers receive the best possible service, advice and technical assistance.

Visit our website www.focusfireplaces.co.uk to explore our full range of Fire Surrounds, Stove Surrounds, Mantel Beams and Electric Suites.

YORK

VINTAGE

STONE

RIVA

FocusCast Mantel Beams and Stove Surrounds are moulded from timber and stone beams using a high-density mineral composite material that can endure extreme exposure to heat and flames and will not ignite. This fire-resistance allows the FocusCast products to be positioned closer to a stove than a timber beam.

Highly realistic and featuring the qualities of real timber and stone beams, the FocusCast collection is hand-painted by our team of experts using a water-based paint system.

Riva can be finished in bespoke paints to match your decor or any of the Oak colours.

The beauty of SOLID OAK

The majesty of a solid oak beam above a roaring stove is an image that many of us visualise when we imagine a warm, cosy room.

With unique natural features, each beam and shelf is truly one of a kind and can be shaped and coloured to suit your own personal tastes. We only use Sustainably sourced timber which is dried in the best possible way to provide the greatest stability in use.

PRIME
Prime timber is an option on all products except Great Beams, Great Shelves and Deep Beams. It is normally supplied with round edges.

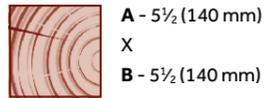

There are Regulations that specify the minimum distance that a beam /shelf must be above the stove. These measurements vary depending on the type and heat output of the selected stove. Please refer to your stockist/installer for further information.

SOLID OAK DEEP BEAMS

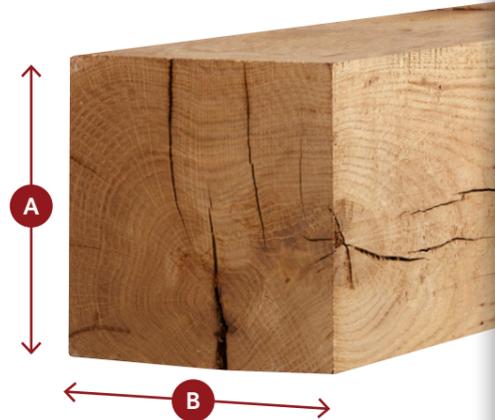

2 PROFILES

Deep Beam

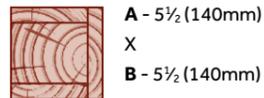

Deep Beams are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skilful workmanship further enhances the beam with progressive levels of ageing (Round Edge, Rustic, Dressed, Aged, Extremely Aged or even Ancient). Each beam is then beautifully finished with your choice of colour.

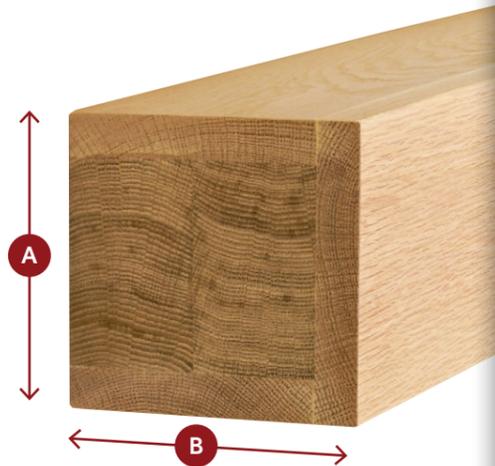

Deep Beams are not available in Prime Timber

Hollow Deep Beam

Hollow Beams are fabricated to give the appearance of a Solid Beam. Their lighter construction is ideal where weight is an issue. They can be made to any size up to 3m. Hollow Beams are not available as Dressed, Extremely Aged or Ancient Oak.

Prime timber is an option on all products except Great Beams, Great Shelves and Deep Beams. It is normally supplied with round edges.

SOLID OAK LARGE BEAMS

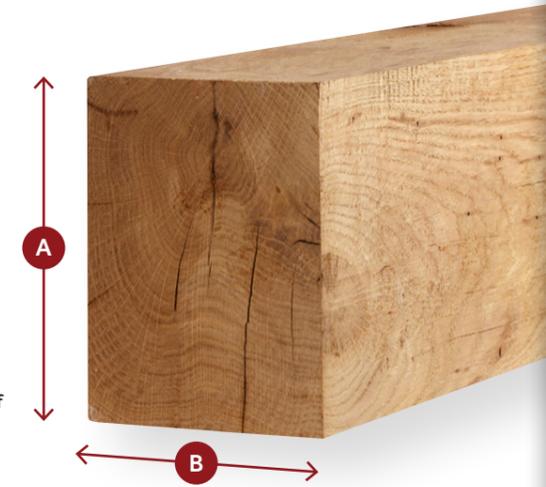

3 PROFILES

Great Beam

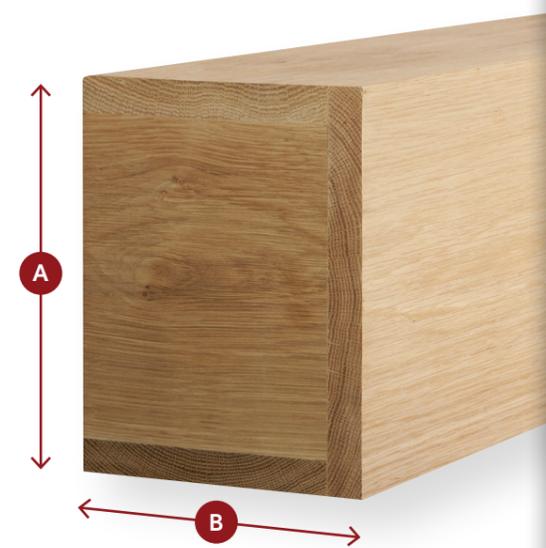

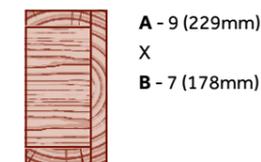

Great Beams are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skilful workmanship further enhances the beam with progressive levels of ageing (Round Edge, Rustic, Dressed, Aged, Extremely Aged or even Ancient). Each beam is then beautifully finished with your choice of colour.

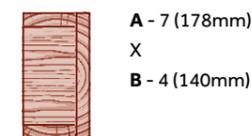

Great Beams are not available in Prime Timber

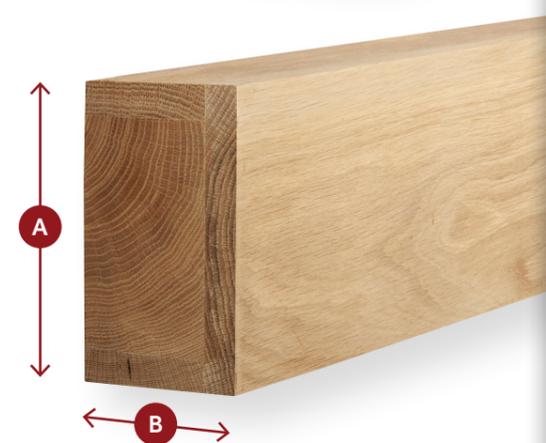

Large Hollow Beam

Hollow Beam

Hollow Beams are fabricated to give the appearance of a Solid Beam. Their lighter construction is ideal where weight is an issue. They can be made to any size up to 3m. Hollow Beams are not available as Dressed, Extremely Aged or Ancient Oak.

Note: All beams (except Prime) feature knots, splits and shakes.

EASY-FIX

The Focus Easy-fix system is a substantial bracket designed to simplify the fitting of the heavier beams and shelves. It comes supplied with plugs and screws.

Once the beam is in place, it is easily secured from underneath with a few turns of an Allen Key.

SOLID OAK FASCIA BEAMS

3 PROFILES

Standard Fascia Beam

-  A - 5½ (140mm)
- X
- B - 2¾ (70mm)

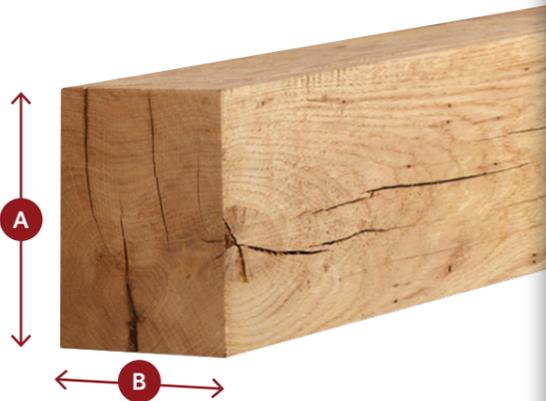

Standard Fascia are cut from the heart of the oak log and therefore reveal lots of character including knots, splits and shakes. Every beam is unique. Skillful workmanship further enhances the beam with progressive levels of ageing (Round Edge, Rustic, Dressed, Aged, Extremely Aged or even Ancient). Each beam is then beautifully finished with your choice of colour.

Deep Beams are not available in Prime Timber

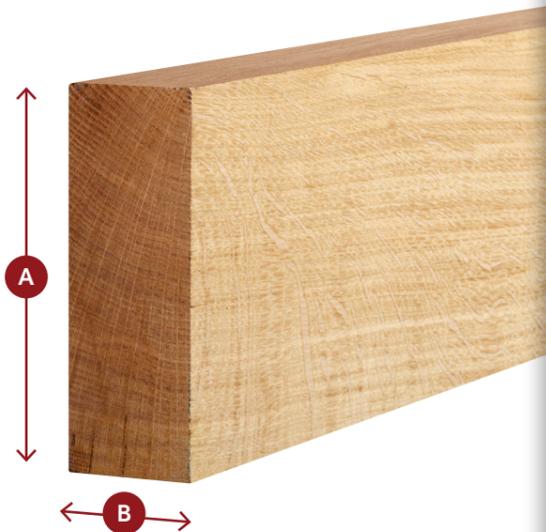

Medium Fascia Beam

-  A - 5½ (140mm)
- X
- B - 3½ (89mm)

Large Fascia Beam

-  A - 7½ (140 mm)
- X
- B - 2¾ (140 mm)

Note: All beams (except Prime) feature knots, splits and shakes.

FIXING SYSTEMS

FOCUS EASY-FIX

Nothing can be easier than an Easy-fix!!

The Focus Easy-fix system is a substantial bracket designed to simplify the fitting of the heavier beams and shelves. It comes supplied with plugs and screws.

Once the beam is in place, it is easily secured from underneath with a few turns of an Allen Key.

If the Easy-fix system is not specified: we supply three M10 x 300mm threaded metal bars that screw into pre-drilled holes in the back of the beam. Consult with your Installer for more information.

Focus Easy-fix Brackets - 950mm

SOLID OAK BEAM COVERS

▲ Above Beam Cover and Spars in Rustic Oak in a Light/Medium Finish

FIXING SYSTEMS FOR FASCIA BEAMS & PANELS

Fascia Beams and Fascia Panels are supplied with two metal plate keyholes inserted in the back. These come complete with plugs and screws

Alternatively there is an 850mm Easy-fix system designed for Fascia Beams. (We recommend discussing fixings with your installer).

HEAT SHIELDS FOR SOLID OAK DEEP BEAMS & GREAT BEAMS
