STOVAX

STOVE CARE

and maintenance accessories

A Warm Welcome...

Stovax is a British company dedicated to the development of high quality stoves, fireplaces, flue systems and associated accessories. Over the past 39 years, Stovax has grown to become one of Europe's largest and most respected stove and fireplace manufacturers, constantly building on a reputation for superior craftsmanship, high quality materials, designer-led aesthetics and technical innovation.

A lifetime of looking good

Stovax stoves and fireplaces have been intrinsically designed to require very little maintenance. However, when there are things to be done, we have an extensive selection of accessories that can make short work of the task.

We also have a range of products available that you may wish to consider alongside your original purchase such as our magnetic flue pipe thermometer and our carbon monoxide detector.

Looking after you and your stove...

A Stovax woodburning or multi-fuel appliance promises years of faithful service, a promise backed up by our extended five year warranty available across all our stoves and fires when purchased from a member of our Expert Retailer Network and registered with Stovax. We take great care to ensure that our stoves and fireplaces are designed, tested and manufactured to the highest possible quality and safety standards, and we are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Our extensive design team and industry leading research and development laboratory ensure that Stovax products are at the very pinnacle of both aesthetic design and fireplace technology; offering

one of the largest and most trusted ranges of high efficiency stoves and fires available anywhere in the world. We pursue a programme of continuous product improvement, with our focus always on developing heating products that contribute to a cleaner, healthier environment. In fact, Stovax is ahead of schedule in its compliance with the European Ecodesign Directive.

Whether you own a Stovax appliance or any other brand, it is important that you follow any servicing and general maintenance recommendations carefully to ensure your stove or fire continues to operate effectively and efficiently, indeed in many cases this will form part of your warranty agreement.

How to re-rope your door seal video

A thermal rope is used to provide a heat resistant air tight seal on the appliance doors and also is often used to provide a seal for the stove or fire glass, essential to ensure your appliance works as intended and with optimum efficiency. Stovax have created a useful step by step video to help lead you through the simple maintenance task of re-roping a door seal, simply visit www.stovax.tv and enter the video code V0008.

Top tip: To allow your rope adhesive time to properly cure, leave it a minimum of

your appliance.

Fireplaces for all interiors

Whether you want to restore a period house to its former glory, or create an authentic look for a modern home, let Stovax's Classic Fireplaces inspire you.

We also pride ourselves on the fact that each remains an individual masterpiece, hand-cast to the same specification as Georgian and Victorian originals, and extensively finished to display a wealth of intricate detail.

Alternatively, we also offer fireplaces with the most up-to-date design to complement

modern interiors. In several cases, Stovax

have added a 21st Century slant to the design to make them even more appropriate to today's homes and lifestyles.

For further information or to request a brochure, simply contact your local retailer or visit www.stovax.com.

Details on the full range of products available and brochure PDF's can be found at the websites detailed above. Alternatively, you can visit www.stovax.com/brochures to view our whole range of brochures.

Professional XQ™

Stove & Fireplace Chimney Systems

Extensive Colour Range

Stovax offers 4 standard powder

coating colours. For internal twin wall

components, Textured Matt Black; and for external components, Satin Black,

Gloss Black and Satin White. However.

Stovax also offer a comprehensive range of stove & fireplace chimney systems, the Stovax Professional XQTM collection. These comprise an extensive selection of vitreous enamelled single skin flue pipe, alongside our high-quality twin wall chimney system components crafted from 304L grade stainless steel for a durable outer finish. The fully sealed twin wall components offer water tight protection for the insulation within.

With innovative decorative options, the ability to specify a colour for your system and with a host of technical advancements such as their Twist-Lock system, the Professional XQ™ range provides an attractive, versatile and reliable solution for your flue system.

Furthermore, the Professional XQ™ range carries a 10 Year Extended Warranty offering complete peace of mind.

All of the Professional XQ™ range is set out in a separate brochure, which can be downloaded from www.stovax.com/brochures.

all external parts can be powder coated to any colour in the RAL range. For example: Matt Black Satin White

Rain cowls

Storm collars

Flashings

Vaulted Rafter Supports

Elbows

Flue Enclosures

Floor & Ceiling Plates & Shields

Straight lengths

Enamelled flue pipes

RAL 1013

BAL 9023 RAL is a European colour matching system mainly used for paint and powder coating.
